The corporate governance of Ono Pharmaceutical Co., Ltd. (the “Company”) is described below.

I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

1. Basic Views

The Company believes that not only complying with laws and regulations but also strengthening supervisory functions to enhance management transparency with a view to increasing corporate value is among its management priorities.

The Company therefore has adopted an organizational framework with Audit & Supervisory Board Members (or the Audit & Supervisory Board), focusing on the enhancement of functions of the Board of Directors and the Audit & Supervisory Board, as part of endeavors to bolster corporate governance.

The Company works to ensure an appropriate number of members of the Board of Directors, with a focus on improving flexibility and expediting the decision-making process. Moreover, the Company has appointed three Outside Directors with specialized knowledge and abundant experience to maintain and improve the soundness of the Company’s management as well as appropriateness of business execution, with the aim of further strengthening corporate governance.

The Outside Audit & Supervisory Board Members include an attorney at law and a certified public accountant, who conduct audits from an objective and professional viewpoint.

[Reasons for Non-compliance with the Principles of the Corporate Governance Code]

The Company implements all the principles of the Corporate Governance Code.

[Disclosure Based on the Principles of the Corporate Governance Code]

UPDATED

Principle 1.4 Cross-Shareholdings

<Policy on Cross-Shareholdings>

The Company believes that it is essential to have partner companies with which the Company can maintain a long-term collaborative relationship, in order to discover innovative pharmaceutical products that bring true benefit to patients. The Company, therefore, holds shares that it deemed necessary to hold for strategic

purposes, after comprehensively considering the business relationship with the issuers of those shares and the synergies created, in light of a medium- to long-term perspective for increasing corporate value.

When judging whether shareholding will lead to an increase in the corporate value of the Company from the medium- to long-term perspective, the Company reviews the purpose of the shareholding, the benefits and risks from shareholding with respect to each issuer of the cross-held shares at the Board of Directors once a year, and determines whether or not to continue holding those shares after comprehensively considering the business relationship with the issuers and synergies created as the basis for an overall review of its cross-shareholdings. For the shares that the Company decides to reduce holdings as a result of this review, dialogue will be held with the investees to obtain their understanding while implementing the reduction.

As part of an overall revision of cross-shareholdings, the Company has been systematically reducing them since fiscal 2018. Cross-shareholdings as of the end of March 2018 (111 issues, totaling 167.1 billion yen) had been reduced by 44 issues by the end of March, 2022, bringing the total amount on the balance sheet to 114 billion yen and the ratio of cross-shareholdings to consolidated net assets to 17.2%. Going forward, the Company will continue to reduce these holdings with the goal of reducing the ratio to less than 10% over the medium to long term.

<Basic Views on Exercise of Voting Rights>

The Company determines how it exercises its voting rights not by uniform standards, but by considering whether the cross-shareholding will lead to an increase in the corporate value of the Company from a medium- to long-term perspective, while respecting the management policies of the issuers of those shares.

Principle 1.7 Related Party Transactions

Any transaction with the related parties of the Company that may cause a conflict of interest requires approval of the Board of Directors pursuant to the Rules of the Board of Directors. In addition, transaction results are appropriately disclosed in accordance with laws and regulations.

Supplementary Principle 2.4.1 Ensuring Diversity in the Promotion to Core Human Resources

<Views on Ensuring Diversity>

The Company believes that it is important to deepen understanding of the diversity of attributes, values, and behavioral characteristics of the members of the organization and to recognize their personalities in order to respond quickly and flexibly to changes in the environment and to improve corporate value.

In addition, the Company considers it necessary to utilize broad diversity regardless of specialized fields, gender, and nationality, as a source of ideas leading to creating innovative pharmaceuticals.

Based on this basic view, the Company conducts recruitment activities, and strives to ensure diversity through its personnel measures such as diversity management training and programs to foster innovative human resources, and others.

<Voluntary and Measurable Goals for Ensuring Diversity and Their Status>

(1)Female employees

The Company fosters a culture for training the next generation of female managers by creating an environment in which women can work more actively, building a system to increase the number of female employees and potential managers and to support the career development for women.

Details of the Company's activities to promote female employee participation in the workplace and others are disclosed on the Company's website.

Activities to promote female employee participation in the workplace: <https://sustainability.ono-pharma.com/en/themes/103#933>

(2)Foreign nationals

In the course of its overseas expansion, which is an important management issue, the Company hires local human resources at its overseas subsidiaries and appoints them to important positions, as they are indispensable for the promotion of projects. (Approximately 80% of managers in the overseas subsidiaries in the United States, United Kingdom, South Korea and Taiwan.)

Overseas subsidiaries play an important role in promoting open innovations such as drug discovery alliances, and global clinical trials. The overseas subsidiaries work together with the head office organization on projects to become a Global Specialty Pharma.

At present, the Company is building a system that enables it to conduct a clinical development in the US and Europe on its own, and is strengthening its organization with a view to future marketing operations. For

this reason, the Company believes that the number of local employees hired and promoted to management positions will increase, and the diversity of the Company as a whole will improve.

In light of the stage of its overseas development, the role of its overseas subsidiaries, and their relationship with the head office organization, the Company currently has not set any voluntary and measurable goals for the hiring of foreign nationals or their appointment to management positions at the Company.

(3)Mid-career employees

In order to respond to changes in the business environment, the Company hires mid-career persons with the skills, knowledge, and experience that it needs as an immediate force.

In particular, since 2014, when the Company faced new growth opportunities, the Company has been actively hiring mid-career persons. The ratio of mid-career employees to total employees in Japan is 14.5%, and the ratio of mid-career employees to management positions is 15.3% (as of March 31, 2022).

Furthermore, the increase in the number of mid-career persons and their promotion to management positions are also driving a change in the organizational culture.

Going forward, the Company intends to continue hiring mid-career persons and promoting them to management positions while taking into consideration changes in the business environment and organizational management needs, and has included an increase in mid-career persons in its workforce plan for the next five years.

In light of the fact that management of corporate pension funds impacts stable asset formation by beneficiaries and the Companies' own financial standing, the Company has set up the Corporate Pension Fund Management Committee, which is mainly comprised of managers responsible for the human resources section, the accounting section and the legal affairs section. The Committee monitors the status of the pension assets and regularly assesses the asset managers in a comprehensive manner. The Committee also reviews the composition of the assets as necessary in order to manage the pension fund appropriately.

Principle 3.1 Full Disclosure

- (1) Based on its corporate philosophy, "Dedicated to the Fight against Disease and Pain," the Company aims to discover innovative pharmaceutical products that bring true benefit to patients. In order to develop as a pharmaceutical company discovering new drugs, the Company has formulated the fundamental policy on drug discovery and challenges to tackle. The Company's current challenges consist of "maximizing product value from a patient-centered perspective," "strengthening pipeline and accelerating global development," "realizing own marketing operations in US/Europe," and "expanding business domain." The Company has established a strategy for growth and is engaging in business activities to achieve the goals of these challenges. Furthermore, the Company is also working to expand intangible assets such as digital technology, IT platforms, human resources, and the corporate brand — the management base supporting the strategy for growth.

In addition, in light of the nature of its business as an R&D-based pharmaceutical company, the Company nominates candidates for Member of the Board of Directors by taking into consideration the balance of their knowledge, experience, capability and diversity, regardless of gender, race, ethnicity, nationality and cultural background, etc., so that the Board of Directors as a whole can make technical and comprehensive management decisions to respond to the management environment surrounding the Company. [Incentives]

Implementation Status of Incentive Policies for Members of the Board of Directors	Performance-linked Remuneration / Others
--	--

Supplementary Explanation

The Company pays bonuses and grants performance-linked restricted stock remuneration to Members of the Board of Directors, excluding Outside Directors, as performance-linked remuneration. Bonuses reflect the degree of achievement of performance indicators for each fiscal year in order to raise the sensitivity of the Members of the Board of Directors toward performance targets. The Company also uses qualitative indicators linked to medium-term management challenges in order to evaluate activities undertaken each fiscal year to improve corporate value over the medium to long term. The Company has adopted revenue, operating profit, and profit for the year on a consolidated basis as performance indicators for bonuses. Bonus amounts are calculated by reflecting the degree of achievement of target figures for performance indicators on the base amount set for each executive position, then considering factors such as individual efforts taken toward medium-term management challenges. Meanwhile, performance-linked restricted stock remuneration is determined as follows: Members of the Board of Directors are evaluated based on overall performance, combining the degree of achievement of set targets for each fiscal year, and the results are applied to the number of shares to be granted to serve to motivate Members of the Board of Directors toward an increase in corporate value over the medium to long term from matching perceptions with shareholders. Evaluation indicators consist of performance targets set individually for each fiscal year that are linked to medium- to long-term management strategies and management challenges (strategic targets), performance targets for each fiscal year (financial targets), and external evaluations regarding ESG and other factors (non-financial targets). With regard to performance indicators for performance-linked restricted stock remuneration, strategic targets are set individually, taking into consideration the relationship between the field each Member of the Board of Directors is in charge of and each item the Company has indicated as its medium- to long-term management strategies and challenges, specifically: “maximizing product value,” “strengthening pipeline and accelerating global development,” “realizing own marketing operations in US/Europe,” “expanding business domain,” creation of a “management base supporting the strategy for growth (expansion of intangible asset),” and “transforming the Company by digital and IT.” The Company has adopted revenue and operating profit as financial targets, and status of inclusion in main ESG indices (in FY2022, we will adopt indexes developed by Dow Jones Sustainability Indices (DJSI), FTSE Russell, MSCI, CDP, etc.) and initiatives to achieve materiality as non-financial targets.
