Completion of a New Tokyo Building

ONO PHARMACEUTICAL CO., LTD. (Osaka, Japan; President, Representative Director and CEO, Gyo Sagara) announced today that it held an opening ceremony for completion of the new Tokyo Building.

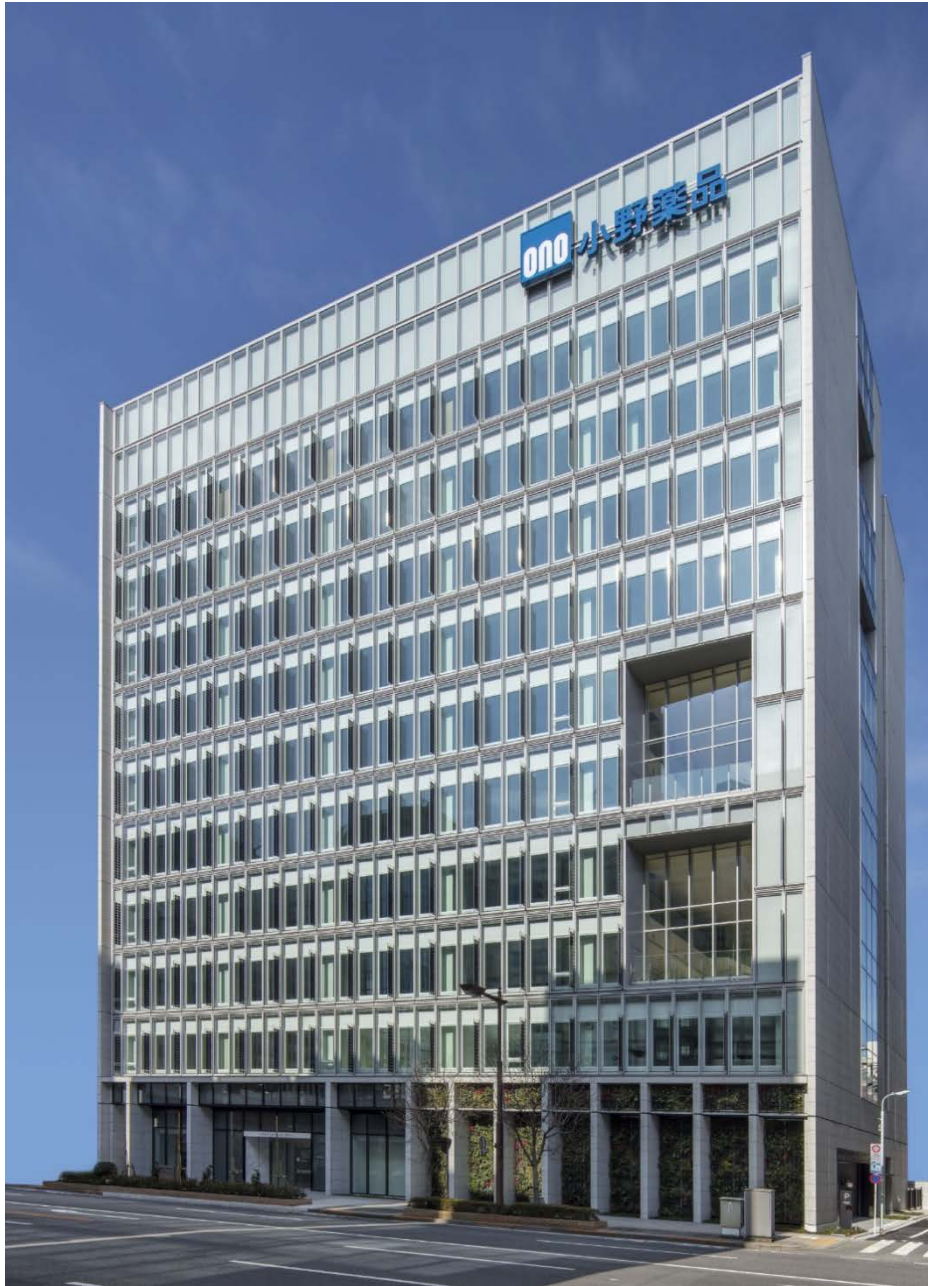

The new building, having 10 floors above ground and 1 basement floor, is designed friendly to the natural environment, for energy-saving and BCP (Business Continuity Planning) with its layout for staffs to be able to activate communication among them.

In terms of the environmental aspects, the building is installed with photovoltaic generation system, high efficiency heat source equipment, etc. as energy-saving equipment, aiming at acquiring "Rank S" in CASBEE (Comprehensive Assessment System for Built Environment Efficiency). Concerning the countermeasures for BCP, it is equipped with facilities such as emergency generator and two-lines power receiving system for preparation for disasters. For the countermeasures against earthquakes, isolation system has been introduced to the building.

From now on, we are planning to sequentially move from the current Tokyo building to start all operations in the new Tokyo Building as from March 19, 2018.
