#### INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of ONO PHARMACEUTICAL CO., LTD.:

#### Opinion

We have audited the consolidated financial statements of ONO PHARMACEUTICAL CO., LTD. and its subsidiaries (the "Group"), which comprise the consolidated statement of financial position as of March 31, 2020, and the consolidated statement of income, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, all expressed in Japanese yen.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of March 31, 2020, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRSs").

#### **Emphasis of Matter**

As discussed in Note 2 to the consolidated financial statements, effective April 1, 2019, the consolidated financial statements have been prepared in accordance with the new accounting standard for leases, IFRS 16. Our opinion is not modified in respect of this matter.

#### **Convenience Translation**

Our audit also comprehended the translation of Japanese yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made in accordance with the basis stated in Note 1 to the consolidated financial statements. Such U.S. dollar amounts are presented solely for the convenience of readers outside Japan.

#### **Basis for Opinion**

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the provisions of the Code of Professional Ethics in Japan, and we have fulfilled our other ethical responsibilities as auditors. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Audit & Supervisory Board Members and the Audit & Supervisory Board for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern in accordance with IFRSs and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Audit & Supervisory Board members and the Audit & Supervisory Board are responsible for overseeing the Directors' execution of duties relating to the design and operating effectiveness of the controls over the Group's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in Japan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements,
  whether due to fraud or error, design and perform audit procedures responsive to those risks. The
  procedures selected depend on the auditor's judgement. In addition, we obtain audit evidence that is
  sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material
  misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve
  collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain, when performing risk assessment procedures, an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate whether the overall presentation and disclosures of the consolidated financial statements are
  in accordance with IFRSs, as well as the overall presentation, structure and content of the
  consolidated financial statements, including the disclosures, and whether the consolidated financial
  statements represent the underlying transactions and events in a manner that achieves fair
  presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements.
   We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with Audit & Supervisory Board members and the Audit & Supervisory Board regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide Audit & Supervisory Board members and the Audit & Supervisory Board with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

#### Interest Required to Be Disclosed by the Certified Public Accountants Act of Japan

Deloitte Touche Tohmatsu LLC

Our firm and its designated engagement partners do not have any interest in the Group which is required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.

#### 1. Reporting Entity

ONO PHARMACEUTICAL CO., LTD. (the "Company") is a company incorporated in Japan. The addresses of its registered head office and principal business locations are disclosed on the Company's website

(URL https://www.ono.co.jp/eng/about/business locations.html).

The consolidated financial statements of the Company were closed at its year-end of March 31, 2020, and comprise the Company and its subsidiaries (collectively, the "Group") and equity interests in associates of the Group. The Group manufactures and sells medical and general pharmaceutical products. The business descriptions and principal activities of the Group are described in "6. Segment Information."

#### 2. Basis of Preparation

#### (1) Statements of Compliance with International Financial Reporting Standards

Pursuant to the provision of Article 93 of the Ordinance on Terminology, Forms, and Preparation Methods of Consolidated Financial Statements, the Company qualifies as a "Specified Company of the Designated International Financial Reporting Standards" prescribed in Article 1-2 of the Ordinance, and the consolidated financial statements of the Group have been prepared in accordance with International Financial Reporting Standards (IFRS).

#### (2) Basis of Measurement

Except for the financial instruments and others described in "3. Significant Accounting Policies," the consolidated financial statements are prepared on a historical cost basis.

#### (3) Functional Currency and Presentation Currency

The consolidated financial statements of the Group are presented in Japanese yen, which is the Company's functional currency. All financial information presented in Japanese yen has been rounded to the nearest million yen, except where otherwise indicated.

#### (4) Changes in Accounting Policies

The Group has applied IFRS 16 "Leases" (issued in January 2016) from the fiscal year ended March 31, 2020.

On application of IFRS 16, right-of-use assets and lease liabilities were recognized on the date of initial application of IFRS 16 (April 1, 2019) for leases previously classified as operating leases under IAS 17 "Leases."

In addition, operating lease payments that had been expensed as incurred under the previous accounting standard were recorded as depreciation for right-of-use assets and interest expense on lease liabilities in the consolidated statement of income for the fiscal year ended March 31, 2020, and reclassified from a reduction in cash flows from operating activities to a reduction in cash flows from financing activities in the consolidated statement of cash flows for the same period.

For leases as a lessee, the Group measures right-of-use assets at cost and lease liabilities at the present value of the lease payments that are not paid at the commencement date of the leases in accordance with IFRS 16.

Right-of-use assets are depreciated by using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

Lease payments are allocated to finance costs and repayments of lease liabilities based on the effective interest method. The finance costs are recognized in the consolidated statement of income.

However, the Group has elected not to recognize right-of-use assets and lease liabilities for leases of intangible assets, leases for which the underlying asset is of low value ("low-value leases"), and short-term leases within 12 months. Lease payments associated with low-value leases and short-term leases are recognized as an expense on either a straight-line basis over the lease term or another systematic basis.

In accordance with the transition under IFRS 16, the Group has retrospectively adopted IFRS 16 and recognized the cumulative effect of initially applying IFRS 16 as an adjustment to the opening balance of retained earnings for the fiscal year ended March 31, 2020. In transitioning to IFRS 16, the Group has elected the practical expedient provided in paragraph of IFRS 16. C3 and carried forward the assessment of whether contracts contain leases in accordance with IAS 17 and IFRIC 4 "Determining whether an Arrangement contains a Lease."

The Group measures lease liabilities at the present value of the lease payments that are not paid at the date of initial application by discounting them at the lessee's incremental borrowing rate at the date of initial application. The weighted average lessee's incremental borrowing rate applied to lease liabilities recognized in the consolidated statement of financial position at the date of initial application is 0.9%. The Group initially measures the right-of-use assets at the initial measurement amount of the lease liabilities adjusted by the amount of any prepaid or accrued lease payments.

For leases that were classified as finance leases applying IAS 17, the right-of-use assets and the lease liabilities are measured at the carrying amount of the leased assets and lease liabilities at the end of the previous fiscal year.

As a result, as of the beginning of the fiscal year ended March 31, 2020, property, plant, and equipment and lease liabilities each increased by ¥6,245 million (\$57,294 thousand), compared with the amounts under the previous accounting standard. There is no impact on the opening balance of retained earnings at the date of initial application, because the Group measures right-of-use assets at the date of initial application at the amount of lease liabilities measured after adjusting the amount of any prepaid and accrued lease payments.

The following is the reconciliation of operating lease contracts disclosed applying IAS 17 as of March 31, 2019 and lease liabilities recognised in the consolidated statement of financial position at the date of initial application.

	Millions of	Yen	Thousands of U.S. Dollars
Operating lease contracts disclosed			
as of March 31, 2019	¥	499	\$ 4,579
Operating lease contracts			
discounted using the incremental			
borrowing rate as of April 1, 2019		499	4,579
Finance lease contracts disclosed as			
of March 31, 2019		2,200	20,182
Cancelable operating lease			
contracts		5,757	52,819
Other		(11)	(104)
Total lease liabilities as of April 1,			
2019	¥	8,445	\$ 77,476
	·		

When applying IFRS 16, the Group used the following practical expedients provided in paragraph IFRS 16. C10:

- A single discount rate is applied to a portfolio of leases with reasonably similar characteristics.
- Leases for which the lease term ends within 12 months of the date of initial application are accounted for in the same manner as short-term leases.
- Initial direct costs are excluded from the measurement of the right-of-use asset at the date of initial application.
- Hindsight is used, such as in determining the lease term, if the contract contains options to extend or terminate the lease.

#### (5) U.S. Dollar Amounts

The accompanying consolidated financial statements are stated in Japanese yen. The translations of Japanese yen amounts into U.S. dollar amounts are included solely for the convenience of readers outside Japan using the rate of \(\pm\)109 to \(\pm\)1, the approximate rate of exchange at March 31, 2020. Such translations should not be construed as representations that the Japanese yen amounts could be converted into U.S. dollars at that or any other rate. Amounts of less than one thousand U.S. dollars have been rounded to the nearest one thousand U.S. dollars in the presentation of the accompanying consolidated financial statements. As a result, the totals in U.S. dollars do not necessarily agree with the sum of the individual amounts.

#### 3. Significant Accounting Policies

The significant accounting policies have been applied consistently to all periods presented in the consolidated financial statements, unless otherwise stated.

#### (1) Basis of Consolidation

#### (1) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it has power over the entity, is exposed to, or has rights to variable returns from its involvement with the entity, and has the ability to affect those returns through its power over the entity.

Even if the Group does not have a majority of voting rights, it concludes that it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally.

Consolidation of a subsidiary begins on the date the Group obtains control over the subsidiary and continues through the date the Group loses control of the subsidiary. Changes in ownership interest in a subsidiary without a loss of control are accounted for as equity transactions, and a difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity as equity attributable to owners of the parent company.

In cases where the accounting policies applied by a subsidiary are different from those applied by the Group, adjustments are made to the subsidiary's financial statements, if necessary.

All intercompany receivables, payables, and transactions of the Group and unrealized profit and loss from intercompany transactions are eliminated in preparing the consolidated financial statements.

The closing date of all subsidiaries is the same as that of the Company.

#### ② Associates

An associate refers to an entity over which the Group does not have control but has significant influence over the financial and operating policies of the entity. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but does not have control over those policies.

Investments in associates are initially recognized at cost and accounted for by the equity method of accounting in the consolidated statement of financial position from the date when the Group obtains significant influence until the date the Group loses significant influence. In cases where the accounting policies applied by an associate are different from those applied by the Group, adjustments are made to the associate's financial statements, if necessary.

The closing date of all associates is the same as that of the Company.

#### 3 Business Combinations

Business combinations are accounted for by applying the acquisition method.

The Group measures the consideration for an acquisition as the sum of the consideration transferred in a business combination, the amount of any non-controlling interest and in a business combination achieved in stages, the acquisition-date fair value of the acquirer's previously held equity interest in the acquisition. The consideration transferred is measured at fair value at the acquisition date. The non-controlling interest is measured at fair value or based on the appropriate share of the acquiree's identifiable net assets.

The Group recognizes goodwill as any excess of the consideration for acquisition over the net amount of the identifiable assets acquired and the liabilities assumed at the acquisition date. If the net amount of the identifiable assets and liabilities of the acquiree exceeds the consideration for acquisition, the acquirer recognizes the excess amount as profit or loss on the acquisition date.

Acquisition-related costs are recognized in profit or loss as incurred.

#### (2) Foreign Currencies

The consolidated financial statements of the Group are presented in Japanese yen, which is the Company's functional currency. Each entity of the Group applies its own functional currency and measures its transactions using its functional currency.

Foreign currency transactions are translated into the functional currency using spot exchange rates or approximate rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency using spot exchange rates as of the closing date. Exchange differences arising from such translations and settlements are recognized in profit or loss. However, exchange differences arising from financial assets measured through other comprehensive income and cash flow hedges are recognized in other comprehensive income.

Assets and liabilities of foreign operations are translated into the presentation currency using spot exchange rates as of the closing date, while income and expenses are translated into the presentation currency at the average exchange rate for the period. The resulting exchange differences are recognized in other comprehensive income. In cases where foreign operations are disposed of, the cumulative amount of translation differences related to the foreign operations is recognized as profit or loss in the period of disposition.

#### (3) Financial Instruments

#### (1) Financial Assets

#### (i) Initial Recognition and Measurement

Trade receivables, etc., are initially recognized on the date when they are incurred. All other financial assets are initially recognized on the contract date when the Group becomes a party to the contractual provisions of the financial instruments. Financial assets are classified as either financial assets measured at fair value or financial assets measured at amortized cost.

All regular-way purchases or sales of financial assets are recognized or derecognized on a settlement date basis. Regular-way purchases or sales refer to purchases or sales of financial assets that require delivery of assets within the timeframe generally established by regulation or convention in the marketplace. At initial recognition, all financial assets, except for those measured at fair value through profit or loss (FVPL), are measured at fair value plus transaction costs that are directly attributable to the financial assets. Transaction costs of financial assets measured through profit or loss are recognized in profit or loss.

- (ii) Classification and Subsequent Measurement
- (a) Financial Assets Measured at Amortized Cost

Financial assets are classified as financial assets measured at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows.
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial recognition, the carrying amounts of the financial assets measured at amortized cost are calculated using the effective interest method. Amortization using the effective interest method and gains or losses arising in the case of derecognition are recognized in profit or loss.

(b) Debt instruments measured at fair value through other comprehensive income (FVOCI)

Financial assets are classified as debt instruments measured at FVOCI if both of the following conditions are met:

 The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.

• The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

#### (c) Equity instruments measured at FVOCI

After initial recognition, equity instruments designated to be measured at FVOCI are measured at fair value, and any changes in fair value are included in net gain (loss) on financial assets measured at FVOCI in other components of equity. When such financial assets are derecognized, the accumulated other comprehensive income is immediately transferred to retained earnings. Meanwhile, dividends from such financial assets are recognized as profit when the shareholder's right to receive payment is established.

#### (d) Financial assets measured at FVPL

Financial assets, except for financial assets measured at amortized cost, debt instruments measured at FVOCI, and equity instruments measured at FVOCI stated above, are classified as financial assets measured at FVPL.

After initial recognition, financial assets measured at FVPL are measured at fair value, and any changes in fair value are recognized in profit or loss.

#### (iii) Derecognition of Financial Assets

The Group derecognizes a financial asset when the contractual right to receive cash flows from the asset expires or is transferred, or when it transfers substantially all the risks and rewards of ownership of the asset.

#### (iv) Impairment of Financial Assets

At the end of each fiscal year, the Group evaluates whether the credit risk on financial instruments has increased significantly since initial recognition. With respect to impairment of financial assets measured at amortized cost, the Group recognizes an allowance for expected credit losses on such financial assets. If credit risk on a financial instrument has not increased significantly since initial recognition, the allowance for such financial instrument is measured at an amount equal to the 12-month expected credit losses. If credit risk on a financial instrument has increased significantly since initial recognition, the allowance for such financial instrument is measured at an amount equal to the lifetime expected credit losses. Whether credit risk is significantly increased or not is determined based on the changes in default risk. The assessment of whether or not there is a change in default risk takes into account information that is reasonably available to the Group and supportable as well as past due information. When the credit risk on a financial asset is considered low at the end of the fiscal year, the Group determines that the credit risk on the financial asset has not increased significantly since initial recognition. Expected credit losses are measured based on the discounted present value of the differences between the contractual cash flows and the cash flows expected to be received. However, with regard to trade receivables, etc., the allowance is always measured at an amount equal to the lifetime expected credit losses, regardless of whether or not there has been a significant increase in credit risk since initial recognition. The amount of expected credit losses or reversal is recognized in profit or loss.

#### ② Financial Liabilities

#### (i) Initial Recognition and Subsequent Measurement

The Group holds financial liabilities that are measured at amortized cost. Financial liabilities measured at amortized cost are initially measured at fair value minus directly attributable transaction costs. After initial recognition, the carrying amounts of financial liabilities measured at amortized cost are calculated using the effective interest method. Gains or losses arising from amortization using the effective interest method and derecognition are recognized as profit or loss in the consolidated statement of income.

#### (ii) Derecognition of Financial Liabilities

Financial liabilities are derecognized when the Group's contractual obligations are discharged, canceled, or expired.

#### ③ Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amounts are presented in the consolidated statement of financial position when, and only when, the Group currently has a legally enforceable right to offset the recognized amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

#### (4) Derivatives

The Group enters into forward foreign exchange contracts as derivatives to address the risk of foreign exchange rate fluctuations. Forward foreign exchange contracts are initially measured at fair value when the contract is entered into and are subsequently remeasured at their fair value. Changes in fair value of foreign exchange contracts are recognized as profit or loss in the consolidated statement of income. However, gains and losses on hedging instruments relating to the effective portion of cash flow hedges are recognized as other comprehensive income in the consolidated statement of comprehensive income.

### ⑤ Hedge Accounting

The Group designates forward foreign exchange contracts that are derivatives in respect of addressing the risk of foreign exchange rate fluctuation as hedging instruments for cash flow hedges. At the inception of the hedge relationship, the Group documents the relationship between hedging instruments and hedged items in accordance with the strategy for undertaking hedge transactions. In addition, at the inception of the hedge and during the life of the hedge, the Group documents whether the hedging instruments are highly effective in offsetting changes in cash flows of the underlying hedged items attributable to the hedged risk.

#### Cash flow hedge accounting is as follows:

The effective portion of changes in fair value of derivatives that are designated and qualify as cash flow hedges is recognized in other comprehensive income and accumulated in other components of equity. The ineffective portion of gains or losses on the hedging instruments is recognized immediately in profit or loss.

Amounts recognized in other comprehensive income and accumulated in equity are reclassified to profit or loss in the periods when the hedged item affects profit or loss in the same line as the recognized hedged item. However, in cases where the hedged forecast transaction results in the recognition of a non-financial asset or liability, the gains and losses previously recognized in other comprehensive income and accumulated in equity are transferred from equity and included in the initial measurement of the cost of the non-financial asset or liability.

Hedge accounting is discontinued when a hedging instrument expires, is sold, terminated, or exercised, or no longer qualifies for hedge accounting. Any gain or loss recognized in other comprehensive income and accumulated in equity remains in equity and is reclassified to profit or loss when the forecast transaction is ultimately recognized in profit or loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognized immediately in profit or loss.

#### (6) Fair Value of Financial Instruments

The fair values of financial instruments traded on active financial markets as of each reporting date are based on quoted prices in the markets or dealer prices. The fair values of financial instruments for which no active markets exist are calculated by using appropriate valuation techniques.

#### (4) Cash and Cash Equivalents

Cash and cash equivalents are composed of cash on hand, bank deposits drawable at any time, and short-term investments with maturities of three months or less from the acquisition date, which are readily convertible to cash and are subject to insignificant risk of changes in value.

#### (5) The Standard for Measurement and the Value of Inventories

Inventory costs include raw materials, direct labor, and other direct costs, as well as relevant overhead expenses.

Inventories are measured at the lower of cost or net realizable value. Cost is mainly determined using the weighted-average method. Net realizable value is determined based on the estimated selling price in the ordinary course of business, less estimated costs of completion and costs necessary to make the sale.

#### (6) Property, Plant, and Equipment (Except for Right-of-Use Assets)

The Group applies the cost model for subsequent measurement of property, plant, and equipment and records them at cost less any accumulated depreciation and accumulated impairment losses.

The cost of property, plant, and equipment comprises costs directly attributable to the acquisition of the assets and initial estimations of asset retirement obligations. Depreciation of an item of property, plant, and equipment commences when the assets are available for use.

Property, plant, and equipment are depreciated by the straight-line method over their estimated useful lives. The estimated useful lives of major asset items are as follows:

Buildings and structures: 15-50 years Machinery and vehicles: 4-15 years Tools, furniture, and fixtures: 2-20 years

The estimated useful lives and depreciation method, etc., are reviewed at the end of each fiscal year, and any changes are treated as changes in accounting estimates and applied prospectively.

#### (7) Impairment of Property, Plant, and Equipment

During each fiscal year, the Group determines whether there is any indication of impairment on each asset. If any indication of impairment exists, the recoverable amount of an asset or a cash-generating unit to which the asset belongs is estimated.

The recoverable amount is computed at the higher of the fair value less costs to sell or value in use of the asset or cash-generating unit. If the carrying amount of an asset or a cash-generating unit exceeds its recoverable amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount and impairment loss is recognized.

The value in use is computed by discounting the estimated future cash flows to their present value using a pretax discount rate that reflects the time value of money and the risks inherent to the asset, etc. For the calculation of an asset's fair value less costs to sell, an appropriate valuation model is used based on available fair value indices.

An impairment loss recognized in prior years is assessed as to whether there is any

indication that the impairment loss for an asset or a cash-generating unit may have

decreased or may no longer exist. If any such indication exists, the recoverable

amount of the asset or cash-generating unit is estimated. In cases where the

recoverable amount exceeds the carrying amount of the asset or cash-generating unit, impairment losses are reversed up to the lower of the estimated recoverable amount

or the carrying amount, net of accumulated depreciation that would have been

determined if no impairment losses had been recognized in prior years.

(8) Intangible Assets

① Intangible Assets Acquired Separately

The Group applies the cost model for measurement of intangible assets and states

them at cost less any accumulated amortization and accumulated impairment

losses. However, intangible assets with indefinite useful lives acquired

separately are stated at cost less any accumulated impairment losses.

Amortization for intangible assets commences when the related assets are

available for use. Except for intangible assets with indefinite useful lives or

which are not yet available for use, each intangible asset is amortized by the

straight-line method over its estimated useful life. The estimated useful lives of

major intangible asset items are as follows:

Sales licenses:

8-17 years

Software:

3-8 years

The estimated useful lives used in calculating the amortization of sales licenses

are determined by considering the effective period of the patents and others.

The estimated useful lives and amortization method are reviewed at the end of

each fiscal year, and any changes are treated as changes in accounting estimates

and applied prospectively.

- 24 -

② Internally Generated Intangible Assets (Research and Development Costs Internally Generated)

Costs arising from development (or from the development phase of an internal project) shall be recognized as an asset if, and only if, all of the following have been demonstrated:

- (i) the technical feasibility of completing the intangible asset so that it will be available for use or sale
- (ii) the intention to complete the intangible asset and use or sell it
- (iii) the ability to use or sell the intangible asset
- (iv) how the intangible asset will generate probable future economic benefits
- (v) the availability of adequate technical, financial, and other resources to complete the development and to use or sell the intangible asset
- (vi) the ability to measure reliably the expenditure attributable to the intangible asset during its development

Due to the risks and uncertainties relating to the approval and development activity of pharmaceutical drugs, the Group determines that the recognition criteria for capitalization as intangible assets are considered not to have been met unless it obtains marketing approval from the relevant regulatory authorities. Internally generated development expenses arising before marketing approval has been obtained are expensed under "Research and development costs" as incurred.

#### ③ Impairment of Intangible Assets

Intangible assets with indefinite useful lives or intangible assets not yet available for use are not subject to amortization and are tested for impairment individually or on a cash-generating unit basis at the end of each fiscal year or whenever any indication of impairment exists.

Impairment tests are performed by calculating the recoverable amount of each intangible asset and comparing the recoverable amount with its carrying amount. In cases where a recoverable amount of an individual asset cannot be estimated, the recoverable amount of the cash-generating unit to which the asset belongs is estimated.

The recoverable amount of an asset or a cash-generating unit is measured at the higher of its fair value less costs to sell or its value in use. The value in use is computed by discounting the estimated future cash flows to the present value.

The discount rate used is a pretax rate that reflects the time value of money and the risks inherent to the asset using unadjusted estimates of future cash flows.

# (9) Leases

For the fiscal year ended March 31, 2019

Leases are classified as finance leases when substantially all the risks and rewards of ownership are transferred to the Group. All other leases are classified as operating leases.

In finance lease transactions, leased assets and lease obligations are carried at the lower of the fair value of the leased property or the present value of the minimum lease payments, each determined at the inception of the lease. Leased assets and lease obligations are presented as property, plant, and equipment and borrowings, respectively, in the consolidated statement of financial position. Leased assets are depreciated using the straight-line method over the shorter of their estimated useful lives or the lease terms. Lease payments are apportioned between the finance costs and the repayments of the lease obligations based on the interest method, and finance costs are recognized as an expense in the consolidated statement of income.

In operating lease transactions, lease payments are recognized as an expense by the straight-line method over the lease terms in the consolidated statement of income. Variable lease payments are recognized as an expense in the period when incurred.

Determining whether an arrangement is, or contains, a lease is identified based on the substance of the arrangement in accordance with IFRIC 4, "Determining Whether an Arrangement Contains a Lease."

For the fiscal year ended March 31, 2020

For leases as a lessee, the Group measures right-of-use assets at cost and lease liabilities at the present value of the lease payments that are not paid at the commencement date of the lease in accordance with IFRS 16.

Right-of-use assets are depreciated by using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

Lease payments are allocated to finance costs and repayments of lease liabilities based on the effective interest method. The finance costs are recognized in the consolidated statement of income.

However, the Group has elected not to recognize right-of-use assets and lease liabilities for leases of intangible assets, leases for which the underlying asset is of low value ("low-value leases"), and short-term leases within 12 months. Lease payments associated with low-value leases and short-term leases are recognized as an expense on either a straight-line basis over the lease term or another systematic basis.

#### (10) Employee Benefits

The Group participates in both defined benefit and defined contribution plans as employee retirement benefit plans.

#### (1) Defined Benefit Plans

For the Group's defined benefit plans, the cost of providing retirement benefits is measured by the projected unit credit method, with actuarial valuations being carried out at the end of each reporting period. Remeasurements, comprising actuarial gains and losses, the effect of any changes in the asset ceiling, and the return on plan assets (excluding net interest), are recognized through other comprehensive income in the period in which they are incurred and immediately reflected in the consolidated statement of financial position. Remeasurements recognized in other comprehensive income are immediately reclassified to retained earnings and will not be reclassified to profit or loss. Past service costs are recognized in profit or loss in the period in which revisions to the plans occurred. Net interest is calculated by applying the discount rate at the beginning of the reporting period to the net defined benefit liability or asset and presented as "finance income" or "finance costs." Defined benefit expenses are classified into the following components:

- Service costs (current service costs, past service costs, and others)
- Net interest expense or income
- · Remeasurements

The retirement benefit assets or liabilities recognized in the consolidated statement of financial position represent the actual surplus or deficit in the Group's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of available future economic benefits in the form of refunds from the plan or reductions in future contributions to the plan.

#### (2) Defined Contribution Plans

Contributions paid for defined contribution plans are expensed in the period in which the employees provide the related service.

#### (11) Provisions

The Group recognizes provisions when it has a present obligation (legal or constructive) as a result of a past event, it is probable that it will be required to settle the obligation, and a reliable estimate can be made.

Where the time value of money is material, a provision is measured at the present value of estimated expenditures required to settle the obligation. The present value is computed using a pretax discount rate that reflects the time value of money and the risks inherent to the liabilities.

#### (12) Revenue

Revenue, excluding interest and dividend income, etc., is recognized by applying the following five steps:

- Step 1: Identify the contract with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation

#### (1) Sale of Merchandise

For the sale of merchandise, revenue is recognized at the point when it is delivered, since material risks and economic value associated with ownership of the merchandise are transferred to customers at the time of its delivery, and customers acquire control over it, and thereby the Group's performance obligations are considered to be satisfied.

The revenue arising from sale of merchandise is calculated by deducting the amount of rebates and discounts based on the number and amount of sales from the consideration in the sales contract, and the consideration to be refunded to customers and the amounts to be collected on behalf of third parties are recognized as a refund liability. The most likely amount method based on contractual conditions and past results is used to estimate rebates, etc. Revenue is recognized only to the extent that it is highly probable that there will not be a significant reversal of revenue previously recognized.

Consideration related to sale of merchandise is mainly received within one year from the delivery of merchandise to customers. This does not include significant financing components.

### ② Royalty Revenue, etc.

Royalty revenue is consideration for license contracts, etc., calculated on the basis of revenue, etc., of the other party in the contract, and it is recognized as revenue taking the time of occurrence into consideration.

License revenue is up-front payment and milestone revenue received under license contracts, etc., related to development or rights to develop or sell products, etc., executed between the Group and third parties. For license contracts, etc., when performance obligations are satisfied at a specific point in time, performance obligations under the contract are considered to be satisfied at the time of granting development or selling rights, etc., for up-front payment and milestone revenue, and at this point, the up-front payment and milestone revenue are recognized as revenue. When performance obligations are satisfied over a certain period of time, the consideration is recognized as contract liabilities, and up-front payment and milestone revenue are recognized as revenue over a certain period of time, such as the estimated development period according to the method of measuring the degree of progress regarding satisfaction of the performance obligations determined for each individual contract.

Milestone revenue is recognized as revenue, considering the probability that there will be a significant reversal of revenue previously recognized, from the time that milestones specified in the contract are achieved.

Royalty revenue, etc., are mainly received within one year from the vesting under the contract. This does not include significant financing components.

#### (13) Income Taxes

Income tax expense represents the sum of current tax expense and deferred tax expense.

Current tax expense is measured at the expected amount of a refund or payment of taxes from/to the taxation authorities. The Group's income taxes are calculated using tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Current tax expense is recognized as an expense, except for the taxes attributable to items recognized directly either in other comprehensive income or equity.

Deferred tax expense is calculated based on temporary differences between the carrying amounts of assets and liabilities for accounting purposes and their tax basis as of the closing date. Deferred income tax assets are recognized to the extent it is probable that taxable profits will be available against which the deductible temporary differences and the carryforward of unused tax credits and tax losses can be utilized. Deferred tax liabilities are principally recognized for all taxable temporary differences.

Deferred tax assets or deferred tax liabilities are not recognized for the following temporary differences:

- Deductible temporary differences associated with investments in subsidiaries and associates where it is probable that the temporary differences will not reverse in the foreseeable future or it is not probable that taxable profits will be available against which the temporary differences can be used.
- Taxable temporary differences associated with investments in subsidiaries and associates where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.
- There are temporary differences arising from the initial recognition of assets and liabilities which occur through transactions that affect neither accounting profit nor taxable profit for tax purposes, except for business combinations.

Deferred tax assets and deferred tax liabilities are calculated using tax rates that are estimated for the year in which these assets are realized or these liabilities are settled, based on tax rates that have been enacted or substantively enacted by the closing date.

#### (14) Treasury Shares

Treasury shares are recognized at cost and deducted from equity. Neither gain nor loss is recognized on the purchase, sale, or retirement of the treasury shares. Any difference between the carrying amount and proceeds on sales is treated as capital reserve.

### (15) Earnings per Share

Basic earnings per share are calculated by dividing profit and loss for the year attributable to owners of the parent company by the weighted-average number of ordinary shares outstanding during the year, adjusted by the number of treasury shares for the period. Diluted earnings per share are calculated by adjusting the effects of all dilutive potential ordinary shares.

#### (16) Share-based Payments

The Company has a share option plan as an incentive plan for the Board of Directors (excluding outside directors). Share options are recognized as expenses over the vesting period and the corresponding amount is recognized as an increase in equity. In addition, the fair value of share options is calculated using the Black-Scholes model at the grant date.

#### 4. Significant Accounting Estimates and Critical Judgment Involving Estimations

The Group's consolidated financial statements include management estimates and assumptions for measurements of income and expense, and assets and liabilities. These estimates and assumptions are based on management's best judgment along with historical experience and other various factors that are believed to be reasonable under the circumstances as of the closing date. However, there is a possibility that these estimates and assumptions may differ from actual results in the future due to their nature.

The estimates and underlying assumptions are continually reevaluated by management. The effects of revisions to the accounting estimates and assumptions are recognized in the period of the revision and future periods.

The information related to the judgments and estimates made in the process of applying accounting policies and accounting estimates and assumptions that have a significant effect on the amounts recognized in the Group's consolidated financial statements is as follows:

- Impairment of property, plant, and equipment and intangible assets (Note 13, 14)
- Recoverability of deferred tax assets (Note 3(13), 16)
- Measurement of defined benefit obligations (Note 23)
- Provision for patent royalties (Note 24)
- Potential outflow of future economic benefits of contingent liabilities (Note 39)

#### 5. Standards and Interpretations Issued but Not Yet Applied

The Group has not elected early application of new or revised standards and interpretations that have been issued before the approval date disclosed in "40. Approval of Financial Statements" on March 31, 2020. The effects of the application are not disclosed for matters of little significance.

### 6. Segment Information

#### (1) Reportable Segments

Based on the Group's corporate philosophy, "Dedicated to Man's Fight against Disease and Pain," in order to fulfill medical needs that have not yet been met, the Group is dedicated to developing innovative new pharmaceutical drugs for patients and focuses its operating resources on a single segment of the pharmaceutical business (research and development, purchasing, manufacturing, and sales). Accordingly, segment information is omitted herein.

#### (2) Details of Revenue

Details of revenue are as follows:

	Million	Thousands of U.S. Dollars	
	For the year ended March 31, 2019	For the year ended March 31, 2020	For the year ended March 31, 2020

- Notes: 1. Depreciation of property, plant, and equipment is included in "Cost of sales" "Selling, general, and administrative expenses" and "Research and development costs" in the consolidated statement of income.
  - 2. The amounts of right-of-use assets are included and described in each item of property, plant, and equipment. The carrying amount of each right-of-use asset is described in "21. Lease Transactions."
  - 3. Commitments related to property, plant, and equipment purchases are described in "38. Commitments for Expenditure."
  - 4. The Group has applied IFRS 16 "Leases" from the fiscal year ended March 31, 2020 as it is described in "2. Basis of Preparation (4) Changes in Accounting Policies." In accordance with the transition under IFRS 16, the Group has retrospectively adopted IFRS 16 and recognized the cumulative effect of initially applying IFRS 16 as an adjustment to the opening balance of retained earnings for the fiscal year ended March 31, 2020. The balance as of the end of the fiscal year ended March 31, 2019 is not restated for the adjustment.

### (2) Impairment Losses

Property, plant, and equipment are grouped into the smallest cash-generating unit(s) generating largely independent cash inflows.

The Group recognized impairment losses for property, plant, and equipment of \mathbb{4}94 million and \mathbb{4}9 million (\mathbb{8}5 thousand) for the years ended March 31, 2019 and 2020, respectively, which are included in "Other expenses" in the consolidated statement of income.

Impairment losses recognized for the years ended March 31, 2019 and 2020, represent reductions in the carrying amounts of assets to be disposed of and idle assets not expected to be used in the future to their recoverable amounts. The recoverable amounts were measured at fair value less costs to sell. The recoverable amounts of assets to be disposed of were considered to be zero.

## 14. Intangible Assets

## (1) Schedule of Movements

The movements in the cost, accumulated amortization, and accumulated impairment losses and carrying amount of intangible assets are as follows:

Cost

- Notes: 1. Amortization of intangible assets is included in "Cost of sales" "Selling, general, and administrative expenses" and "Research and development costs" in the consolidated statement of income.
  - 2. Among the intangible assets above, intangible assets that are still not available for use amounted to ¥19,162 million and ¥17,269 million (\$158,435 thousand) as of March 31, 2019 and 2020, respectively. These mainly consist of separately acquired in-process research and development costs recorded in "Patents and licenses," which are still in research and development phases, and accordingly, they are not in a condition available for use until the phase where marketing approvals have been obtained from related authorities and they are finally made into products.
  - 3. Commitments related to intangible asset purchases are described in "38. Commitments for Expenditure."

## (2) Individually Significant Intangible Assets

## ① Details and Carrying Amounts

Details of significant intangible assets and their carrying amounts are as follows:

				Thousands of
		Million	s of Yen	U.S. Dollars
Item	Details	March 31, 2019	March 31, 2020	March 31, 2020
Patents and licenses	In-process research and development costs acquired separately Sales licenses	¥ 18,835 35,653	¥ 16,762 40,583	\$ 153,782 372,317

Note: Major items of in-process research and development costs acquired separately and sales licenses consisting of lump-sum payments for introductions to licensors and milestone payments are as follows:

	March 31, 2019	March 31, 2020
In-process research and	ONO-7643/Anamorelin	ONO-7643/Anamorelin
development costs	ONO-1162/Ivabradine	ONO-2370/Opicapone
acquired separately		ONO-7701 (BMS-
	ONO-2370/Opicapone	986205)
		/Linrodostat
	ONO-7701 (BMS- 986205)	ONO-5704/SI-613
	ONO-5704/SI-613	ONO-7912(CPI-
	ONO-3/04/SI-013	613)/Devimistat
	ONO-7705/Selinexor ONO-7706/KPT-8602	ONO-7913/Magrolimab
Sales licenses	STAYBLA	FORXIGA
	RIVASTACH	KYPROLIS
	FORXIGA	PARSABIV
	KYPROLIS	BRAFTOVI, MEKTOVI
	PARSABIV	CORALAN
	BRAFTOVI, MEKTOVI	

#### 2 Remaining Amortization Period

The average remaining amortization periods of significant intangible assets are as follows:

Item	Details	March 31, 2019	March 31, 2020
Patents and licenses	Sales licenses (years)	11.3	9.7

#### (3) Impairment Losses

Intangible assets are grouped into the smallest cash-generating unit(s) generating largely independent cash inflows.

In addition, patents and licenses are grouped separately by cash-generating units based on products and developed goods, which are the smallest group of units generating largely independent cash inflows.

The recoverable amount of an asset is calculated based on value in use measured based on the valuation of risk-adjusted future cash flows discounted at an appropriate rate. Future cash flows are estimated based on business forecasts. There is a possibility that a future event may result in changes in assumptions used in such impairment tests and may affect future operating results of the Group. The Group's discount rate used in calculating value in use is calculated based on the weighted-average cost of capital, and the pretax discount rate used in the calculation of value in use is from 7.5% to 11.8% and from 8.1% to 14.2% for the years ended March 31, 2019 and 2020, respectively.

As a result of impairment testing, the Group recognized impairment losses for intangible assets of ¥65 million and ¥2,724 million (\$24,994 thousand) for the years ended March 31, 2019 and 2020, respectively. Impairment losses on sales licenses were included in "Cost of sales" in the consolidated statement of income and impairment losses on in-process research and development costs were included in "Research and development costs." Impairment losses on software were included in "Other expenses." Impairment losses on patents and licenses were recognized in the year ended March 31, 2020 mainly due to the discontinuation of new drug development.

#### 15. Investments in Associates

Aggregate financial information of equity-method investees is summarized as follows:

			Thousands of	
	Million	Millions of Yen		
	For the year ended	For the year ended	For the year ended	
	March 31, 2019	March 31, 2020	March 31, 2020

Net	\$ 183,727	\$ 70,199	\$ 55,776	\$ 309,702

- Notes: 1. The differences between deferred tax expense and the amount recognized in profit or loss are exchange differences on translation of foreign operations and others.
  - 2. The effective statutory tax rate used to calculate deferred tax assets and deferred tax liabilities as of March 31, 2019 and 2020 in Japan is 30.6%.

#### (2) Income Tax Expense

Details of income tax expense are as follows:

			Thousands of
	Million	s of Yen	U.S. Dollars
	For the year ended	For the year ended	For the year ended
	March 31, 2019	March 31, 2020	March 31, 2020
Current tax expense	¥ 22,601	¥ 27,492	\$ 252,224
Deferred tax expense	(9,139)	(7,685)	(70,500)
Total	¥ 13,462	¥ 19,808	\$ 181,724

Note: The Group is subject to corporate tax, inhabitant tax, and enterprise tax in Japan, which in the aggregate resulted in an applicable tax rate for current tax expense of approximately 30.6% for the years ended March 31, 2019 and 2020, respectively. Overseas subsidiaries use the income tax rates of the countries in which they are located.

### (3) Reconciliation of Applicable Tax Rates and Average Actual Tax Rates

Details of the differences between the applicable tax rates and average actual tax rates are as follows:

	For the year ended March 31, 2019	For the year ended March 31, 2020
Applicable tax rates	30.6 %	30.6 %
Permanent non-deductible items	0.5	0.4
Non-taxable dividends	(0.3)	(0.2)
Tax credit for research and other	(11.0)	(6.6)
Other	0.9	0.7
Average actual tax rates	20.7 %	24.9 %

Note: The applicable tax rates used to reconcile the applicable tax rates and average actual tax rates are the Company's effective statutory income tax rates.

#### 17. Trade and Other Payables

Details of trade and other payables are as follows:

	Million.	s of Yen	Thousands of U.S. Dollars
	March 31, 2019	March 31, 2020	March 31, 2020
Notes payable	¥ 503	¥ 471	\$ 4,322

Total	¥ 5	15	¥	450	\$	4,127
Non-current liabilities						
Other	¥	5	¥	0	\$	3
Total	¥	5	¥	0	\$	3

## 20. Assets Pledged as Collateral

Assets pledged as collateral are as follows:

			Thousands of
	Millions	s of Yen	U.S. Dollars
	March 31, 2019	March 31, 2020	March 31, 2020
Other current assets	¥ 4,000	¥ 4,000	\$ 36,697
Total	¥ 4,000	¥ 4,000	\$ 36,697

Note: These were pledged as collateral for the deferred payment arrangements of customs duties and consumption taxes related to import transactions based on the Customs Act of Japan and the Consumption Tax Act of Japan.

#### 21. Leases

March 31, 2019

The comparative information presented for March 31, 2019 is based on IAS 17.

#### (1) Finance Leases

#### Lessee

Details of future minimum lease payments under finance lease contracts and their present value are as follows:

	Millions of Yen	Millions of Yen
		Present value of minimum
	Minimum lease payments	lease payments
	March 31, 2019	March 31, 2019
One year or less	¥ 438	¥ 435
More than one year to five years	1,046	993
More than five years	1,034	772
Total	¥ 2,518	¥ 2,200

Note: Lease transactions classified as finance leases of the Group are buildings and structures, machinery and vehicles, and tools, furniture, and fixtures. These lease contracts do not include renewal options, purchase options, variable lease payments, or escalation clauses, and there are no restrictions, such as additional borrowings and additional lease contract.

### (2) Operating Leases

#### Lessee

Non-cancelable Operating Lease Contracts
 Details of future minimum lease payments under non-cancelable operating lease

	Millions of Yen		
	March 31, 2019		
One year or less	¥	213	
More than one year to five years		286	
More than five years		_	
Total	¥	499	

contracts are as follows:

Note: The Group engages in office rental, etc., classified as operating leases. Certain lease contracts include renewal options. The lease contracts do not include variable lease payments or escalation clauses, and there are no restrictions, such as additional borrowings and additional lease contracts, in the contracts.

#### ② Operating Lease Contracts Recognized as Expenses

Minimum lease payments based on operating lease contracts recognized as expenses are as follows:

	Millions of Yen
	For the year ended
	March 31, 2019
Minimum lease payments	¥ 174

#### Lessor

### ① Non-cancelable Operating Lease Contracts

Details of future minimum lease receipts based on non-cancelable operating lease contracts are as follows:

	Millions	of Yen
	March 31	, 2019
One year or less	¥	19
More than one year to five years		17
More than five years		5
Total	¥	41

Note: The Group engages in land rental, etc., classified as operating leases.

March 31, 2020

### (1) Right-of-use assets

Right-of-use assets are included in "Property, plant, and equipment" in the consolidated statement of financial position.

The main areas of leases that the Group has entered into are for offices, parking lots, and cars. Certain lease contracts include renewal options. The lease contracts do not include purchase options, variable lease payments, or escalation clauses. There are no restrictions, such as additional borrowings and additional lease contracts, in the contracts.

Information on leases that the Group has entered into as a lessee is as follows:

Other	(2,948)	(1,638)	(21)	=	(4,607)
Balance at					
March 31, 2020	\$ 16,551	\$ 46,999	\$ 12,587	\$ 325	\$ 76,461

Note: The balance as of March 31, 2019 is the carrying amount of leased assets under finance leases based on IAS 17.

## (2) Lease liabilities

The maturity analysis of lease liabilities of the Group is disclosed in "34. Financial Instruments (4) Liquidity Risk Management."

### (3) Amount recognized in profit or loss

The amount recognized in profit or loss is as follows:

	Millions of Yen	Thousands of U.S. Dollars
	For the year ended March 31, 2020	For the year ended March 31, 2020
Depreciation for right-of-use assets	¥ 2,243	\$ 20,575

Note: The interest expenses on lease liabilities are disclosed in "31. Finance Income and Finance Costs."

### (4) Amount recognized in the consolidated statement of cash flows

The amount recognized in the consolidated statement of cash flows is as follows:

	Thousands of
Millions of Yen	U.S. Dollars
For the year ended March 31, 2020	For the year ended March 31, 2020
¥ 3.824	\$ 35,080
	For the year ended

### 22. Other Liabilities

Details of other current liabilities and other non-current liabilities are as follows:

		Thousands of U.S. Dollars				
	March 3	1, 2019	March 3	1, 2020	March :	31, 2020
Other current liabilities						
Accrued consumption taxes	¥	1,729	¥	2,629	\$	24,120
Accrued salary and bonus		5,800		5,753		52,783
Accrued compensated vacation		3,130		3,256		29,873
Accrued expenses		1,505		1,416		12,992
Other		16		130		1,194
Total	¥	12,181	¥	13,185	\$	120,961
Other non-current liabilities						
Compensated long-service						
benefit obligations	¥	620	¥	625	\$	5,733
Other		212		188		1,724
Total	¥	832	¥	813	\$	7,456

#### 23. Retirement Benefits

The Group has defined benefit corporate pension plans and lump-sum payment plans for its defined benefit schemes. Effective October 1, 2004, the Company introduced a new defined benefit corporate pension plan combining the defined benefit corporate pension plan (formerly additional pensions under employees' pension fund plan) and a tax-qualified pension plan, and granted employees the option to select a defined contribution plan for certain lump-sum payment plans. In addition, the Company has set up a retirement benefit trust in order to supplement funding deficits in benefit obligations.

Further, three overseas subsidiaries have defined contribution plans, one overseas subsidiary has a lump-sum payment plan, and two domestic subsidiaries participate in corporate pension fund plans (multiemployer pension plans) in addition to lump-sum payment plans.

The Group calculates the present value of defined benefit obligations and related service costs based on actuarial assumptions. The actuarial assumptions require estimates and judgments on variables, such as discount rates and net interest, etc. With advice obtained from external pension actuaries with respect to the appropriateness of the actuarial assumptions including the variables, the actuarial assumptions are determined based on the best estimates and judgments made by management; however, changes in uncertain future economic conditions may have a material impact on amounts recognized in the consolidated financial statements.

### (1) Defined Benefit Plans

#### ① Defined Benefit Plan Liabilities and Assets

Details of defined benefit plan liabilities and assets in the consolidated statement of financial position are as follows:

	Million	Thousands of U.S. Dollars		
	March 31, 2019	March 31, 2020	March 31, 2020	
Contributory				
Defined benefit obligations	¥ 49,967	¥ 50,802	\$ 466,073	
Fair value of plan assets (including				
retirement benefit trust)	(45,249)	(45,535)	(417,755)	
Subtotal	4,717	5,267	48,318	
Non-contributory				
Defined benefit obligations	798	781	7,166	
Subtotal	798	781	7,166	
Net defined benefit liability	¥ 5,515	¥ 6,048	\$ 55,485	
Retirement benefit liabilities stated in the consolidated statement of financial position	¥ 5.515	¥ 6,048	\$ 55,485	
illianciai position	+ 3,313	+ 0,046	φ 33,463	

### ② Obligations under Defined Benefit Plans

Movements in the defined benefit obligations are as follows:

	Millions of Yen					Thousands of U.S. Dollars	
	-	ear ended 31, 2019	For the year ended March 31, 2020		For the year ended March 31, 2020		
Opening balance of defined benefit obligations	¥	48,105	¥	50,765	\$	465,731	
Service cost		2,368		2,496		22,902	
Interest expense		366		308		2,829	
Remeasurements							
Actuarial losses (gains) due to changes in							
financial assumptions		1,383		(235)		(2,159)	
Other		72		40		370	
Benefits paid		(1,530)		(1,791)		(16,433)	
Closing balance of defined benefit obligations	¥	50,765	¥	51,583	\$	473,240	

Notes: 1. The weighted-average payment years for the defined benefit obligations as of March 31, 2019 and 2020, were 18.2 years and 17.1 years, respectively.

2. Remeasurements of defined benefit plans are the differences between the actuarial assumptions used for calculation of "Defined benefit liabilities" and actual experience, and the impact of changes in actuarial assumptions.

#### ③ Plan Assets

Movements in the fair value of plan assets are as follows:

	Millions of Yen					Thousands of U.S. Dollars	
	For the ye		•	year ended 31, 2020	For the year ended March 31, 2020		
Opening balance of fair value of plan assets	¥	44,249	¥	45,249	\$	415,132	
Interest income		345		281		2,577	
Remeasurements							
Return on plan assets		173		(352)		(3,231)	
Contributions from employers		1,526		1,571		14,412	
Benefits paid		(1,043)		(1,214)		(11,135)	
Closing balance of fair value of plan assets	¥	45,249	¥	45,535	\$	417,755	

Note: The Group expected to make contributions of \(\xi\)1,570 million (\\$14,403 thousand) to the defined benefit corporate pension plans in the year subsequent to March 31, 2020.

The fair value of plan assets classified by nature of assets and risks is as follows:

							Thousands of			
	Millions of Yen							U.S. Dollars		
	M	arch 31, 20	19	M	arch 31, 20	20	N	March 31, 2020		
	Assets with active market prices	Assets without active market prices	Total	Assets with active market prices	Assets without active market prices	Total	Assets with active market prices	Assets without active market prices	Total	
Equity instruments										
Domestic equity instruments	¥ 2,315	¥ -	¥ 2,315	¥ 1,870	¥ -	¥ 1,870	\$ 17,153	\$ -	\$ 17,153	
Overseas equity instruments	2,067		2,067	1,758		1,758	16,124		16,124	
Debt instruments										
Domestic debt instruments	_	4,033	4,033	-	2,957	2,957	-	27,132	27,132	
Overseas debt instruments	_	1,513	1,513	-	1,825	1,825	=	16,739	16,739	
General accounts at life insurance companies		29,715	29,715		30,339	30,339		278,343	278,343	
Other	_	5,607	5,607	-	6,787	6,787	-	62,263	62,263	
Total	¥ 4,382	¥40,868	¥45,249	¥ 3,627	¥41,908	¥45,535	\$33,277	\$ 384,478	\$ 417,755	

The Group's operating policy for plan assets is as follows:

The Group's basic policy for plan asset management aims to secure necessary long-term returns within a tolerable risk level in order to ensure future payment of pension benefits stipulated in the terms of defined benefit corporate pension plans and lump-sum payments.

A target rate of return is set aiming to exceed the rate of return necessary for maintaining sound operations of the defined benefit corporate pension plans over the future, specifically higher than the expected rate of return for pension financing.

In order to meet this return target, the asset portfolio is verified by both the Company and the investment management institutions to be in conformity with the basic policy, and, in addition, the composition of the asset portfolio is reviewed as necessary.

The basic policy is subject to change in accordance with changes in the Company's status and systems or operating environment surrounding the Company.

### (4) Profit and Loss on Defined Benefit Plans

Profit and loss on defined benefit plans for each fiscal year recognized in the consolidated statement of income are as follows:

					Thousai	nds of	
		Millions	s of Yen		U.S. Dollars		
	•	e year ended For the year ended March 31, 2019 March 31, 2020		For the year ended March 31, 2020			
Service costs	¥	2,368	¥	2,496	\$	22,902	
Net interest	-	21	-	28	-	252	
Expenses recognized in the consolidated							
statement of income	¥	2,389	¥	2,524	\$	23,154	

Note: Among the above expenses, service costs are included in "Cost of sales," "Selling, general, and administrative expenses," and "Research and development costs," and net interest is included in "Finance income" or "Finance costs."

### ⑤ Significant Assumptions Used for the Actuarial Valuations

The significant assumptions used for the purposes of the actuarial valuations are as follows:

March 31, 2019	March 31, 2020
0.6	0.6
2.8	2.8
25.2	25.3
26.8	26.8
	0.6 2.8 25.2

### 6 Sensitivity Analysis

The sensitivity analysis represents the effects of changes in significant actuarial assumptions on the present value of the defined benefit obligations. The effects of any changes in assumptions used for measuring defined benefit obligations are as follows:

		Millions of Yen				Thousands of U.S. Dollars	
	Changes in principal assumptions	March 3	31, 2019	March (	31, 2020	March 3	1, 2020
		Increase	Decrease	Increase	Decrease	Increase	Decrease
Defined benefit obligations							
	0.5%						
Discount rate	increase/decrease	¥(4,369)	¥ 4,807	¥(4,187)	¥ 4,581	\$ (38,409)	\$42,032
Expected							
average remaining lives	1 year increase/decrease	953	(987)	990	(1,024)	9,087	(9,396)

Thousands of II S

Note: The analysis is based on the assumption that other factors remain constant.

### (2) Multiemployer Pension Plans

Two domestic consolidated subsidiaries have joined corporate pension funds (multiemployer pension plan). This plan is integrated-type defined benefit plan, and therefore, the amount of pension assets corresponding to the contributions made by each company cannot be determined reasonably. Thus, the amount of the contribution is recognized as postemployment expenses in the same manner as defined contribution plans.

#### (3) Defined Contribution Plans

The Group recognized ¥3,052 million and ¥3,051 million (\$27,993 thousand) as expenses for defined contribution plans for the years ended March 31, 2019 and 2020, respectively.

#### 24. Provisions

#### (1) Details

Provisions stated in current liabilities are as follows:

			Thousands of
	Millions of Yen		U.S. Dollars
	March 31, 2019	March 31, 2020	March 31, 2020
Provision for patent royalties	¥ 17,206	¥ 20,721	\$ 190,103

## (2) Schedule of Movements

The movements in provisions are as follows:

	Provision for patent royalties				
_	Millions of Yen	Thousands of U.S. Dollars			
Balance at March 31, 2019	¥ 17,206	\$ 157,856			
Added to provisions	3,515	32,247			
Balance at March 31, 2020	¥ 20,721	\$ 190,103			

Note: Provision for patent royalties is recognized and measured based on estimated royalty payment to third parties. The information required in IAS 37, "Provisions, Contingent Liabilities and Contingent Assets," is disclosed according to IAS 37. 92., instead of disclosing the respective figures, because such information may have some effects on the results of future discussion, etc.

### 25. Share Capital and Other Equity Items

(1) Share Capital and Capital Reserves

Changes in the number of authorized shares and issued shares, share capital, and capital reserves are as follows:

			Millions of Yen		
	Number of authorized shares (Shares)	Number of issued shares (Shares)	Share capital	Capital reserves	
Balance at April 1, 2018	1,500,000,000	543,341,400	¥ 17,358	¥ 17,175	
Increase (decrease)	_	_	_	27	
Balance at March 31, 2019	1,500,000,000	543,341,400	¥ 17,358	¥ 17,202	
Increase (decrease)		(15,000,000)	_	27	
Balance at March 31, 2020	1,500,000,000	528,341,400	¥ 17,358	¥ 17,229	
			Thousands of U.S. Dollars		
			Share capital	Capital reserves	
	Balance a	at March 31, 2019	\$ 159,250	\$157,814	
	Increase (	(decrease)		248	
	Balance a	at March 31, 2020	\$ 159,250	\$158,062	

- Notes: 1. All shares issued by the Company are fully paid-up ordinary shares with no par value.
  - 2. Increases and decreases in the number of issued shares for the year ended March 31, 2020 are due to retirement of treasury shares.

#### (2) Treasury Shares

Changes in the number and amount of treasury shares are as follows:

	Number of shares	Amount
	(Shares)	(Millions of Yen)
Balance at April 1, 2018	29,219,787	¥ 38,148
Increase (decrease)	1,073	3
Balance at March 31, 2019	29,220,860	¥ 38,151
Increase (decrease)	1,412	6,587
Balance at March 31, 2020	29,222,272	¥ 44,737
	Balance at March 31, 2019 Increase (decrease) Relance at March 31, 2020	Amount (Thousands of U.S.  Dollars)  \$ 350,006 60,430 \$ 410,435
	Balance at March 31, 2020	\$ 410,433

- Notes: 1. Increases and decreases in the number and amount of treasury shares for the year ended March 31, 2019 are due to purchases of fractional unit shares. Those for the year ended March 31, 2020 are due to purchases under Article 156 of the Companies Act, applied by the reading of terms pursuant to the provisions of Paragraph 3, Article 165 of the Companies Act, retirement of treasury shares, and purchases of fractional unit shares.
  - 2. Treasury shares held by associates as of March 31, 2019 and 2020, are \u22427 million and \u22429 million (\u2266 thousand), respectively.

#### (3) Other Components of Equity

Changes in other components of equity are as follows:

			Millions of Yen		
	Exchange differences on translation of foreign operations	Net fair value loss on derivatives under hedge accounting	Net gain (loss) on financial assets measured at FVOCI	Remeasurement of defined benefit plans	Total
Balance at April 1, 2018	¥ 605	¥ -	¥ 67,416	¥ –	¥ 68,021
Increase (decrease)	70		((0)	(000)	(001)
Other comprehensive income	78	_	(68)	(890)	(881)
Transfer to retained earnings	_	_	(6,178)	890	(5,288)
Balance at March 31, 2019	¥ 682	¥ –	¥ 61,170	¥ –	¥ 61,852
Increase (decrease)					
Other comprehensive income	(219)	_	(1,884)	(109)	(2,212)
Transfer to retained earnings	_	_	(11,719)	109	(11,610)
Balance at March 31, 2020	¥ 463	¥ -	¥ 47,567	¥ –	¥ 48,030

	Thousands of U.S. Dollars					
	Exchange differences on translation of foreign operations	Net fair value loss on derivatives under hedge accounting	Net gain (loss) on financial assets measured at FVOCI	Remeasurement of defined benefit plans	Total	
Balance at March 31, 2019 Increase (decrease)	\$ 6,259	\$ -	\$ 561,190	\$ -	\$ 567,450	
Other comprehensive income	(2,008)	_	(17,286)	(1,001)	(20,295)	
Transfer to retained earnings	_	_	(107,513)	1,001	(106,512)	
Balance at March 31, 2020	\$ 4,252	\$ -	\$ 436,391	<u> </u>	\$ 440,643	

- Notes: 1. Exchange differences on translation of foreign operations are the differences arising from consolidating the financial statements of overseas subsidiaries, which were prepared in foreign currencies.
  - 2. Net fair value loss on derivatives under hedge accounting is the effective portion of fair value change in derivative transactions, which are designated as cash flow hedges and meet their specific criteria.
  - 3. Changes in fair value of financial assets measured through other comprehensive income are valuation differences in fair value of financial assets measured through other comprehensive income.
  - 4. Remeasurement of defined benefit plans is recognized in "Other comprehensive income" when it is incurred and immediately transferred from "Other components of equity" to "Retained earnings."

#### 26. Dividends

### (1) Dividends Paid

Dividends paid are as follows:

For the year ended March 31, 2019

			Dividends		
Date of resolution	Share type	Total dividends (Millions of Yen)	per share (Yen)	Record date	Effective date
General shareholders' meeting held on June 22, 2018	Ordinary shares	¥ 10,282	¥ 20	March 31, 2018	June 25, 2018
Board of Directors' meeting held on November 1, 2018	Ordinary shares	¥ 11,568	¥ 22.5	September 30, 2018	December 3, 2018

### For the year ended March 31, 2020

Date of resolution	Share type	Total dividends (Millions of Yen)	Dividends per share (Yen)	Total dividends (Thousands of U.S. Dollars)	Dividends per share (U.S. Dollars)	Record date	Effective date
General shareholders' meeting held on June 20, 2019	Ordinary shares	¥ 11,568	¥ 22.5	\$ 106,126	\$ 0.21	March 31, 2019	June 21, 2019
Board of Directors' meeting held on October 31, 2019	Ordinary shares	¥ 11,230	¥ 22.5	\$ 103,029	\$ 0.21	September 30, 2019	December 2, 2019

### (2) Dividends Whose Effective Date is in the Following Fiscal Year

Dividends whose record date is in the current fiscal year and whose effective date is in the following fiscal year are as follows:

For the year ended March 31, 2019

			Dividends per	•		
		Total dividends	share		Effective	
Date of resolution	Share type	(Millions of Yen)	(Yen)	Record date	date	
General shareholders' meeting held on	Ordinary	¥ 11.568	¥ 22.5	March 31,	June 21,	_
June 20, 2019	shares	± 11,508	+ 44.3	2019	2019

outstanding (thousands of shares)	514,171	504,044	

#### 34. Financial Instruments

### (1) Equity Management

The Group manages its equity in view of maintaining the confidence of investors, creditors, and the market, securing a firm capital base for continued future growth, and implementing strategic investments necessary to maximize corporate value while distributing consistent dividend payments.

The Group's capital management focuses on net debt where cash and cash equivalents are deducted from interest-bearing debt and equity (attributable to owners of the parent company and non-controlling interests). The Group considers methods of capital distribution to shareholders based on an evaluation of the medium-term strategic plan, including business performance, future research and development of new medicines, partnerships with bio-ventures, and additionally the introduction of pipelines to complement research and development risk. This evaluation will exert influence on decision-making regarding the level of dividend payments and the Group's market purchase of treasury shares.

#### (2) Financial Risk Management

The Group is constantly exposed in its operating activities to various financial risks, including credit, liquidity, market, and others (e.g., foreign exchange and price fluctuation). In order to avoid or mitigate these risks, the Group manages risks according to certain basic policies. The Group policy is not to enter into speculative derivative or equity transactions, but to operate funds primarily through debt instruments such as safe government bonds, etc., while also partially employing financial assets with guaranteed liquidity to meet short-term capital requirements. For derivative transactions, the Group enters into foreign exchange contracts to mitigate the foreign exchange risk associated with settling payments in foreign currencies. Such transactions are controlled by the Accounting Department of the Company.

#### (3) Credit Risk Management

Credit risks are risks that result in financial losses incurred by the Group when a customer goes into default for contractual obligations. When full or partial collection of trade receivables, etc., is considered impossible, or extremely difficult, it is deemed to be a default.

The Group's trade receivables are exposed to the credit risk of its customers. In addition, like other pharmaceutical companies, the Group is exposed to concentrated credit risk from a small number of wholesale companies through which it sells its products. In cases where any of these wholesale companies face financial difficulties, there is a possibility that this may have a severe and disadvantageous influence on the Group's financial performance.

The Group's revenue mainly consists of royalty revenue and sales of products through a small number of wholesalers, and the total revenue from the top five group companies (including the parent company and the group company) accounts for about 76% of "Revenue" in the consolidated statement of income. Trade receivables from the top five group companies as of March 31, 2019 and 2020 were \(\frac{4}{5}5,140\) million and \(\frac{4}{5}6,591\) million (\(\frac{5}{5}19,182\) thousand), respectively.

In order to mitigate monetary damage caused by the default of such counterparties, the Group, in principle, determines credit limits and trade terms and conditions based on the credit management policy. In addition, in order to minimize the amount of uncollectable receivables, the Group manages due dates and balances by transaction, and executes continuous credit evaluation by receiving credit updates for its main counterparties from third party rating agencies. With regard to trade receivables, etc., that do not contain significant financing components, the allowance is always measured at an amount equal to the lifetime expected credit losses, regardless of whether or not there has been a significant increase in credit risk since initial recognition, and the Group has never recorded a significant bad debt loss on its trade receivables in the past.

The Group is also exposed to issuer credit risk for bonds held to make use of surplus funds and shares held for political purposes. In addition, the Group is exposed to credit risk of the financial institutions that are the counterparties in derivative transactions used to mitigate the foreign exchange risk associated with settling payments in foreign currencies. Because the Group operates funds primarily through secure debt instruments and executes transactions with highly rated financial institutions in order to prevent the emergence of credit risk in advance, credit risk is low.

The carrying amounts of financial assets after impairment presented in the consolidated statement of financial position represent the Group's maximum exposure to financial asset credit risk.

At the end of each fiscal year, the Group evaluates whether the credit risk on financial instruments has increased significantly since the initial recognition, and with respect to impairment of financial assets measured at amortized cost, the Group recognizes an allowance for expected credit losses on such financial assets.

The movements in allowance for doubtful accounts are as follows:

	Millions of Yen  For the year ended March 31, 2019		Millions of Yen  For the year ended March 31, 2020		Thousands of U.S.  Dollars		
					For the year ended March 31, 2020		
Balance at the beginning of							
the year	¥	8	¥	8		\$	75
Increase		0		_			_
Decrease (utilization)		_		(2)			(17)
Decrease (other)				(1)			(8)
Balance at the end of the year	¥	8	¥	5	<u> </u>	\$	50

#### (4) Liquidity Risk Management

The Group is exposed to the liquidity risk of not being able to fulfill its payment obligations at present or in the future due to an inability to source sufficient cash.

The Group, in particular the Accounting Department, maintains appropriate reserves and manages liquidity risk through monitoring of the Group's cash flow forecasts and results. Because the Group has sufficient cash and cash equivalents and other highly liquid assets and secures stable cash inflows from operating activities, this risk is low.

# Financial liabilities by maturity are as follows:

March 31, 2019

Other financial liabilities

		Contractual cash		More than one

#### (5) Market Risk Management

- ① Foreign Exchange Risk
- 1) Foreign Exchange Risk Management

The Group engages in business activities internationally and receives royalties or makes payment of expense in foreign currencies. Therefore, the Group is exposed to risks such as decrease in revenue, increase in cost price and development cost, and foreign exchange losses through fluctuations in foreign exchange rates. This risk primarily arises from currencies such as U.S. dollar, Euro, and British pound. In order to mitigate this risk, the Group enters into hedging instruments for a fixed portion of foreign currency-denominated transactions through forward foreign exchange contracts in accordance with the market risk management policy.

These forward foreign exchange contracts are maturities of one year or less.

#### 2) Details of Forward Foreign Exchange Contracts by Currency

Details of forward foreign exchange contracts by currency are as follows:

	March 31, 2019				March 31, 2020				March 31, 2020	
	am (Mil	ractual ount lions of Dollars)	(Mi	value illions Yen)	ame (Mill	ractual ount ions of Oollars)	(Mi	value llions Yen)	(Thous	value sands of Oollars)
(Sell)										
U.S. Dollar - Cash flow hedge	\$	47	¥	(86)	\$	40	¥	(27)	\$	(249)
included in the above		45		(84)		40		(27)		(249)

#### 3) Foreign Exchange Sensitivity Analysis

At the end of each fiscal year, the amount of impact on equity and profit or loss in the case of the yen depreciating by 10% against the U.S. dollar, Euro, and British pound is as follows:

		Million	Thousands of U.S. Dollars					
	March	March 31, 2019		31, 2020	March 3	March 31, 2020		
		Profit or		Profit or	Profit or			
	Equity	(loss)	Equity	(loss)	Equity	(loss)		
U.S. Dollar	¥ 306	¥(541)	¥ 307	¥ (56)	\$ 2,817	\$ (511)		
Euro	_	(36)	_	(11)	_	(100)		
British pound	116	(17)	117	(24)	1,071	(222)		

Note: The analysis is based on the assumption that other variable factors remain constant.

#### 2 Price Fluctuation Risk

The Group is exposed to the risk of share price fluctuations that arise from equity instruments.

These equity instruments are basically held for the purpose of business strategy and not for short-term trading purposes. In addition, the Group periodically reviews the fair value of the instruments and the financial condition of issuers and the like, and takes into account the relationship with that company and reconsiders the composition of holdings in the company as necessary.

In case that the share price of equity instruments held by the Group increases or decreases by 10% at year-end, accumulated other comprehensive income (net-of-tax) would increase or decrease by ¥11,553 million and ¥9,253 million (\$84,886 thousand) as of March 31, 2019 and 2020, respectively, as a result of changes in fair value of the equity instruments designated as financial assets measured at FVOCI.

### (6) Hedge Accounting

#### ① Hedging instruments

The periods over which the Group hedges cash flow fluctuations by foreign exchange contract are within one year or less.

The carrying amounts (fair value) of the assets of hedging instruments are included in "Other financial assets," and the carrying amounts (fair value) of the liabilities of hedging instrument are included in "Other financial liabilities."

#### March 31, 2019

Note: The figures represent amounts before tax effect adjustments.

The hedge ineffectiveness is immaterial. Also, there is no cash flow hedge reserve arising from hedging relationships for which hedge accounting is no longer applied.

#### (7) Fair Value of Financial Instruments

#### (1) Fair Value Measurements

The methods and assumptions used in measuring the fair values of financial assets and financial liabilities are as follows:

Cash and cash equivalents, trade and other receivables, and trade and other payables Since these items are settled in a short period of time, the fair values of these items are approximately equivalent to their carrying amounts.

#### Marketable securities and investment securities

The fair values of marketable securities and investment securities are measured using quoted market prices. The fair values of unlisted shares are measured through rational methods, such as the adjusted net assets method and others.

#### Other financial assets and other financial liabilities

#### · Insurance reserve fund

The fair value of the insurance reserve fund is measured based on the surrender value because there are no significant contractual restrictions associated with a refund.

#### · Forward foreign exchange contracts

The fair values of forward foreign exchange contracts are measured based on quoted market prices for forward foreign exchange contracts under the same terms and conditions as of the closing date.

#### Time deposits

The fair values of time deposits are based on discounted future cash flows using an interest rate assumed to be applied if similar contracts were to be newly carried out.

#### Others

Since other items are settled in a short period of time, their fair values are approximately equivalent to their carrying amounts.

### ② Fair Value and Carrying Amount

The carrying amounts and fair values of financial assets and liabilities held by the Group by account are as follows. The following table does not include financial assets and liabilities whose carrying amounts and fair values are equivalent.

		Millions of Yen						T	Thousands of U.S. Dollars	
		March 31, 2019			March 31, 2020			March 31, 2020		
		Carrying amount	F	air value		Carrying amount	Fair value		Carrying amount	Fair value

#### ③ Fair Value Hierarchy

IFRS 13 Fair Value Measurement requires an entity to classify the fair value of financial instruments into Level 1 through Level 3 of the fair value hierarchy based on the observability of the inputs used in the fair value measurements of financial instruments.

The fair value hierarchy is as follows:

- Level 1: Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that are available at the measurement date.
- Level 2: Inputs are inputs other than quoted market prices included within Level 1 that are observable for assets or liabilities, either directly or indirectly.
- Level 3: Inputs are unobservable inputs for assets or liabilities.

### 1) Financial Assets and Financial Liabilities Measured at Fair Value

The fair values of financial assets and financial liabilities measured at fair value in the consolidated statement of financial position, grouped by fair value hierarchy are as follows:

Sale	(18)	=	=
Settlement	(507)	(553)	(5,075)
Balance at end of the year	¥ 9,064	¥ 9,310	\$ 85,409

- Notes: 1. Profit or loss included in total gains or losses is related to financial assets measured at FVPL. These gains and losses are included in "Finance income" and "Finance costs," respectively.
  - 2. Other comprehensive income included in total gains or losses is related to financial assets measured at FVOCI. These gains and losses are included in "Net gain (loss) on financial assets measured at FVOCI."
  - 3. There are no applicable financial liabilities measured using Level 3 on a recurring basis.

#### 35. Share-based Payments

The Company has a share option plan which reflects the Board of Directors' goal of long-term improvement of corporate value to share the consciousness of the profit of the Company with shareholders.

### (1) Contractual conditions of share options

	Eligible persons	Number of share options granted (Shares)	Grant date	Exercise period	Settlement method	Vesting conditions
2015 issued	The Company's directors (excluding outside directors)	2,900	July 13, 2015	From July 14, 2015 through July 13, 2055	Settled in equity	None
2016 issued	The Company's directors (excluding outside directors)	13,000	July 14, 2016	From July 15, 2016 through July 14, 2056	Settled in equity	None
2017 issued	The Company's directors (excluding outside directors)	14,500	July 14, 2017	From July 15, 2017 through July 14, 2057	Settled in equity	None
2018 issued	The Company's directors (excluding outside directors)	14,500	July 9, 2018	From July 10, 2018 through July 9, 2058	Settled in equity	None
2019 issued	The Company's directors (excluding outside directors)	20,000	July 5, 2019	From July 6, 2019 through July 5, 2059	Settled in equity	None

Notes: 1. Holders of subscription rights to shares can exercise their share subscription rights only from the day following the date of resignation from their position as director of the Company.

- 2. Although the Company conducted a stock split of common stocks at a ratio of 1:5 with an effective date of April 1, 2016, the effect of this stock split is not reflected in the above table for 2015 issued.
- (2) Movement of the number of share options and their weighted-average exercise price

	For the year ended March 31, 2019		For the year ended March 31, 2020		For the year ended March 31, 2020
	Number of share options (Shares)	Weighted- average exercise price (Yen)	Number of share options (Shares)	Weighted- average exercise price (Yen)	Weighted- average exercise price (Dollar)
Outstanding at the beginning of the year	42,000	1	56,500	1	0.01
Granted	14,500	1	20,000	1	0.01
Exercised	_	_	_	_	_
Forfeited	_	_	-	-	-
Outstanding at the end of the year	56,500	1	76,500	1	0.01
Options exercisable, at the end of the year	_	_	_	_	_

Note: The exercise price of unexercised share options was ¥1 (\$0.01) for the year ended March 31, 2020 and the weighted-average remaining life was 37.3 years as of March 31, 2020.

- (3) Fair value and fair value measurement method of share options
  - ① Measurement method Black-Scholes model
  - ② Primary base assumptions and measurement method

	For the year ended March 31, 2019	For the year ended March 31, 2020	For the year ended March 31, 2020
Fair value	¥1,909	¥1,338	\$12
Share price at the grant date	¥2,598.5	¥2,068.5	\$19
Exercise price	¥1	¥1	\$0.01
Expected volatility	31.649%	31.409%	
Option life	20 years	20 years	
Expected dividend yield	¥40	¥45	\$0.41
Risk-free interest rate	0.487%	0.208%	

Note: The expected volatility is estimated based on share prices for the past 20 years.

## (4) Expenses related to share-based payments

Expenses related to share-based payments are as follows:

			Thousands of
	Million	s of Yen	U.S. Dollars
	For the year ended	For the year ended	For the year ended
	March 31, 2019	March 31, 2020	March 31, 2020
Share-based payments	¥ 27	¥ 27	\$ 248

### **36.** Non-cash Transactions

Non-cash transactions (investments and financial transactions that do not involve the use of cash and cash equivalents) are as follows:

	Million	s of Yen	Thousands of U.S. Dollars
	For the year ended March 31, 2019	For the year ended March 31, 2020	For the year ended March 31, 2020
Property, plant, and equipment acquired under finance leases	¥ 1,933	¥ -	\$ -
Additions to right-of-use assets		2,774	25,452
Total	¥ 1,933	¥ 2,774	\$25,452

#### 37. Related Parties

#### (1) Subsidiaries and Affiliates

Details of the Group's subsidiaries and affiliates are as follows:

			Proportion of voting ri	ghts held by the Group
			March 31, 2019	March 31, 2020
Name	Primary business	Location	(%)	(%)
ONO PHARMA USA, INC.	Pharmaceutical business	New Jersey, United States of America	100.0	100.0
ONO PHARMA UK Ltd.	Pharmaceutical business Pharmaceutical	London, United Kingdom	100.0	100.0
ONO PHARMA KOREA CO., LTD.	business Pharmaceutical	Seoul, Korea	100.0	100.0
ONO PHARMA TAIWAN CO., LTD. Oriental Pharmaceutical & Synthetic	business Pharmaceutical	Taipei, Taiwan	100.0	100.0
Chemical Co., Ltd.	business Pharmaceutical	Chuo-ku, Osaka City Higashiyodogawa-ku,	45.5	45.5
Bee Brand Medico Dental Co., Ltd.	business	Osaka City	80.0 (40.0)	80.0 (40.0)

Notes: 1. The percentage of voting rights in parentheses represents the percentage held indirectly, which is inclusive of the proportion of voting rights held.

2. The Group holds 50% or less of equity in Oriental Pharmaceutical and Synthetic Chemical Co., Ltd., but treats the company as a subsidiary because the Group substantially controls it.

#### (2) Transactions with Related Parties

There were no significant transactions and balances of receivables and payables between the Group and its related parties.

#### (3) Remuneration of Key Management Personnel

The remuneration of the Group's key management personnel is as follows:

	16:11:	CV	Thousands of
	Million	s of Yen	U.S. Dollars
	For the year ended	For the year ended	For the year ended
	March 31, 2019	March 31, 2020	March 31, 2020
Fixed			
remuneration	¥ 257	¥ 260	\$ 2,389
Bonuses	77	81	739
Share-based			
payments	27	27	248
Total	¥ 361	¥ 368	\$ 3,376

- Notes: 1. Remuneration of key management personnel comprises the remuneration for eight people for the year ended March 31, 2020 (eight people for the year ended March 31, 2019), who are key management personnel having authority and responsibility for planning, supervising, and managing business activities of the Group.
  - 2. As for remuneration of key management personnel, remuneration of internal directors consists of fixed remuneration, bonuses and share-based payments, and remuneration of outside directors and auditors consists of only fixed remuneration. The fixed remuneration of internal directors is determined in consideration of factors such as the size of the Group's business, the nature of their duties, scope of responsibility of each management personnel, and consistency in treatment with respect to other employees with a remuneration database from major consulting companies. The bonuses and stock options as share-based payments are determined in consideration of management indicators, such as revenue and operating profit that reflect performance and qualitative indicators such as contributions to enhancement of long-term corporate value. On the other hand, in consideration of factors, such as the nature of their duties and to ensure the independence from the execution of business, the remuneration of outside directors and auditors consists of only fixed remuneration. To determine the level of remuneration of outside directors, the Company refers to a remuneration database from major consulting companies so that the Company can seek suitable persons who have significant experience and broad knowledge.

#### 38. Commitments for Expenditure

Payment commitments after the end of each fiscal year date are as follows:

	Million	Thousands of U.S. Dollars	
	March 31, 2019	March 31, 2020	March 31, 2020
Property, plant, and equipment Intangible assets	¥ 2,013	¥ 1,122 109	\$ 10,294 996
Total	¥ 2,013	¥ 1,231	\$ 11,290

The Group has milestone payments relating to the success of development projects and achievement of specific sales targets. Milestone payments that the Group may potentially pay within three years are \$18,158 million and \$11,760 million (\$107,890 thousand) as of March 31, 2019 and 2020, respectively.

These milestone payment amounts are undiscounted and include all such potential payments assuming all projects currently in development are successful and specific sales targets are achievable.

#### 39. Contingent Liabilities

In September 2015, Dana-Farber Cancer Institute in the United States of America filed a suit in the U.S. District Court for Massachusetts against the Company, Bristol-Myers Squibb Company, and Professor Tasuku Honjo for addition of inventors for patent applications on anti-PD-1 antibodies and anti-PD-L1 antibodies that the Company owned.

On May 17, 2019, in the first instance, the Court ruled that Clive Wood, PhD and Dana-Farber Cancer Institute scientist, Gordon Freeman, PhD are coinventors on the patents. On June 21, 2019, Dana-Farber Cancer Institute, that received the rights and interests relating to the invention from Gordon Freeman, PhD, filed a suit in the U.S. District Court for Massachusetts for the right to receive a part of license revenue that the Company and Bristol-Myers Squibb Company received by a settlement or a license agreement as a result of suits for infringement of patents that the Company and Bristol-Myers Squibb Company, as owners of the patent monopoly, filed against their competitors.

The Company was dissatisfied with the decision and appealed. The Group is not able to estimate the impact on its consolidated financial statements at this stage.

## 40. Approval of Consolidated Financial Statements

The consolidated financial statements for the year ended March 31, 2020, were approved by Gyo Sagara, President, Representative Director, and Chief Executive Officer, on June 18, 2020.

## 41. Significant Subsequent Events

There is no applicable item.
